a hands on approach

Who are we?

WISE Employment and Training Services is the Training Division of WISE Employment, one of Australia's most successful specialist employment services.

Our friendly, highly qualified team provide engaging, positive and practical training, tailored to suit the needs of our diverse clients.

We also call on a wide network of specialised sessional trainers to provide industry-specific classes.

"We had ten people take part in your Certificate II training. It certainly enabled those with no experience to be exposed to the cleaning industry and to gain a better understanding of what is involved. It was also an excellent opportunity for our current employees to refresh their skills and gain a qualification."

Jim, Clean Force

What can we do for you?

We believe that the right skills and qualifications can make the difference between finding a job and keeping it.

Whether we are providing courses for job seekers or those already in the workforce looking to extend their skills, our programs are designed to challenge, support and empower each participant.

We provide a wide range of programs, from Nationally Accredited Certificates and Diplomas right through to one-off specialist courses.

Furthermore, we specialise in tailoring our programs to suit individual needs.

Our strong connections with the local labour market ensure our training programs target areas of current skills shortages.

"I have learnt so much ... from creating effective resumes and cover letters to boosting my confidence in interviews. I will always remember the very first time I had practice interviews with you ... it was hard but I got through it. You have given me strength to never back down and keep on trying."

Jane, former Job Search client

Individual focus

Our trainers recognise the unique experiences and skills each participant brings to our courses. They also understand the challenges many face and are committed to helping them overcome barriers to further education.

This flexible approach has seen us schedule our classes to suit child care commitments, arrange interpreters for non-English speaking participants, or even condense a training program into the shortest time possible for those clients looking for a rapid outcome.

Our programs focus on providing hands-on learning opportunities, breaking theory into practical and manageable steps, and often include work experience.

"You make learning fun and involve the kids in what they're doing. You talk with them, not at them, and most importantly, you really care about my clients moving forward."

Sarah, Youth Worker
