

a smooth return

Helping you return to work or study

Lots of people take a break from work or study. Often it is to raise a family or care for someone. Sometimes it's because they're an older job seeker and having difficulty finding work. They might be recovering from an injury, or have a disability or another barrier to employment. Whatever your reason, you are not alone. WISE Employment is keen to help you get back to work or study just as quickly and easily as possible.

How is WISE different?

As Australia's most successful specialist employment service, WISE helps people find jobs they want to do. It's our secret to lasting employment. Because you're going back to work or study you understand how enjoyable and rewarding they can be. You probably have a pretty good idea of what suits you as well – so we'll listen and focus on what you're good at.

How do we help?

Our Return to Work and Study Program is cost-free and tailored to help you update your skills. WISE offers units from Certificate II in Business with an opportunity to learn at your own pace, build your confidence and up-skill. Our course includes:

- Using new business technology
- Communicating in the workplace
- Working effectively with others
- New OH&S procedures
